## MANUFACTURER'S CERTIFICATION STATEMENT

For Residential Energy Efficient Properties purchases

Under Title 26 — Internal Revenue Code § 25D, Residential Energy Efficient Property, the IRS allows up to a 30% federal investment Tax Credit (ITC) for installing residential Energy efficient property as a "qualified solar electric property expenditure." A "qualified solar electric property expenditure" is an expenditure for property which uses solar energy to generate electricity in a qualified dwelling unit located in the United States and used as a residence by the taxpayer.

JA Solar USA, Inc. designs and manufactures solar-electric modules and hereby certifies that the including but not limited to the JAM54S30-xxx<sup>1</sup>/MR, JAM54S31-xxx/MR, JAM54D40-xxx/MB and JAM54D41-xxx/MB products qualify as approved solar electric property and therefore the tax credit when installed as part of a residential energy efficient property.

JA Solar USA, Inc. is not a tax advisor. Taxpayers claiming a tax credit should consult a tax professional with any questions. JA Solar USA, Inc. is not responsible or liable for the taxpayer's ability to receive tax credits. This certification is not intended to constitute legal or tax advice.

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts presented are true, correct and complete.

Best regards,
